During the comprehensive architectural remodelling and renovation, the roof was removed, and the walls were taken back to bear brick with a new internal brick skin creating a cavity and insulation required for planning and building regulations approval. This insulation to the property was applied to the floor, walls and roof space.

The dining kitchen provides ample space for a family table & chairs, and the kitchen is fitted with an extensive range of wall and base units including

a ceramic sink. Also, there is a connection for a gas cooker and space for a fridge and freezer. This kitchen is a dual aspect room with windows to the front and rear elevations, providing lots of natural light. The ground floor accommodation is completed with a rear porch leading out to the garden, utility room and W.C. On the first-floor, bedroom one is a large double, having windows to both front and rear elevations, a large walk-in wardrobe and further built in wardrobes within the room. Bedroom two is also a spacious double with windows to front and rear elevation. Bedroom three is a single bedroom and currently has a wardrobe with desk & drawers on one side and there is bed space on the other side of the room. The bedrooms are all served by a fitted shower room having tiled shower enclosure, pedestal wash basin and W.C.

The property has LPG gas central heating, gas cooking, and the boiler also provides the hot water via the boiler.

Outside a gravel driveway provides off road parking at the front of the house. Extending, through the double gates, leading to the rear of the house, there is a large gravel driveway, accommodating a number of vehicles if wished, and then onto a detached brick and tile garage (5.6m x 4.9m), having an electric up and over door plus power/light. The extensive gardens lie predominantly to the rear of the house and are mainly laid to lawn. Around the perimeter of the garden is timber panel fencing with individual Red Robin Photinias.
